# INTRODUCTORY

1943

We greatly appreciate the generous orders from our customers, which have enabled us to keep going in our extensive hybridizing operations.

The labor situation compelled us to cut our 1942 planting to just one fifth of 1941. So we will be very short of stock in several varieties, some of which we will have only blts. to offer, and practically nothing in large quantities.

1942 was our banner year at the shows (seven), at which we won nineteen championships, three American Home Achievement awards, the Gracie Allen, six Awards of Merit, and many specials, showing only Wilson originations.

Buy war bonds and stamps, and if you have an overload we will be glad to accept them in payment for bulbs.

We have cut down the size of our 1943 list, thus enabling us to pass on bigger values to our customers.

Many show reports are not yet in but we are herein giving enough 1942 winnings with WILSON originations to prove their ability.

We are introducing twelve fine new ones this year with the assurance that they all carry the WILSON standard. All are blue ribbon winners and better, except one.

## GRACIE ALLEN

*Ohio Nonpareil X Marmora*

(80 Days) 1943 . . . Big ex. type light red that has been very dependable in giving us a very large percentage of double row show quality spikes. One of the big attractions in our plantings the past two years. Fifty-six inches tall, 20 buds, 10 open,  $5\frac{1}{2}$  inch floret. Excellent propagator. A glad we are really proud to introduce. Champion sdlg. and winner of the Gracie Allen personal awards at N.E.G.S. Coal Belt Regional at W. Va. American Home Ach. at Ohio State. Runner-up for Am. Home Ach. at S. E. Mich. First Ohio State second show. All 1942, first and only times shown. We regret that only a small portion of the stock was planted last Spring, which compels us to introduce at a higher price than is our habit, also to limit offering to 20 large bulbs at \$10.00 per bulb; 30 medium at \$7.00 per bulb; 40 small at \$4.00 per bulb; blts. \$1.00 each and only 100 will be sold this year.

## LARIME

*Tangarine X Peggy Lou*

(90 Days) 1943 . . . Was shown under name of Sun Kissed Orange, changed to meet registry requirements. Unquestionably the grandest double row show glad in the orange division. Almost every spike of show caliber with us. Good propagator with excellent field performance. Many requests for prices, with stock none too large. Commendation Empire State. First S. E. Mich. 1941. Champion of show Wellsville. Champion sdlg. Ohio State. Sectional champion at both Penna. State and S. E. Mich., 1942. Only times shown. A real orange with a neat blotch that you can't do without. A big gray of monstrous proportions that is liked by all seeing it. Pictured as sdlg. No. 166-Z in back of our 1942 catalogue. Twenty-two buds, 12 open, 7 inch floret, 65 inches tall. (90 Days) 1940 . . . Smoky light orange gray with cream throat blotch. Lightly ruffled. Double row placement that is hard to beat. Few large bulbs among the fanciers yet, but when they are, High Finance will be right out front with the blue ribbons. \*\*\*\*With our plantings so heavily cut in 1942, we had to make many very regrettable sacrifices and the following of our varieties we were compelled to eliminate for the time being and will have only bulblets to offer. We have a number of choice sdlgs. coming along for future introduction, some of which are already award winners and champions.

We hope all fanciers will do your utmost to at least keep your nearby shows working, even though you may have to borrow your neighbor's hoss and buggy.
